GOLDEN INDUSTRIAL CAMPUS

17611 East Street
North Fort Myers, FL 33917
U.S.A.

RAISING VESSELS AND QUALITY STANDARDS WORLDWIDE

With over 35 years of experience in manufacturing a comprehensive range of lift systems in sizes from 500 lbs. to 240,000 lbs., Golden Boat Lifts creates marine lifts for individual boat owners, marinas and institutions around the globe. This fast-growing company has a superior international reputation and a commitment to setting ever-higher standards for quality and service.

WHEN IT'S DONE RIGHT... IT'S GOLDEN

They say, "if you want something done right, you've got to do it yourself." That's what inspired Bill Golden, owner and president, to launch the business known as Golden Boat Lifts. He saw the need for a company that put design, craftsmanship, quality, safety and service first. To hold the integrity of the final product over quantity, convenience and lower costs. Today, Golden stands head and shoulders above our competitors. We are distinguished by the materials used, our ability to custom-create every part required and our fully welded aluminum frames — the same standard held by other world-class manufacturing companies.

GOLDEN ELEVATOR LIFTS

Golden Aluminum Elevators are the best designed lift on the market today. These lifts provide a solution for situations such as narrow canals, embankments and locations where pilings cannot be used. Small lots sometimes make access to your slip impossible: this is the answer. Golden Boat Lifts designed the most up to date Elevator available today, especially for these conditions.

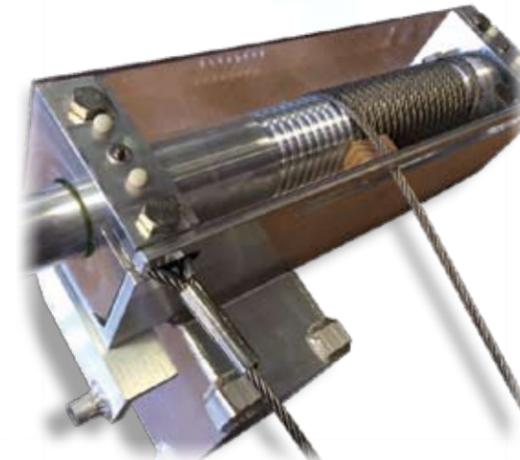

ELEVATOR LIFT CAPACITIES

- 3,000 lbs - 40,000 lbs
- Larger sizes available

"I couldn't be more happy with the Golden Lift... I get as many compliments on the lift as I do on the boat"

- Mike, Michigan

Solid Aluminum Deep Grooved Winder with Billet Bearings and a Lexan Safety Cover

WHY BUY A GOLDEN ELEVATOR LIFT?

- The Sea-Drive is warranted for 10 years and has 8,000 inch pounds of torque so we can use a 3.5" winder vs. a 2.375" winder
- Drive mounts are box constructed to cover the cut I-Beam Track
- All of our assemblies are built for commercial or private use
- Lexan safety covers keep fingers away from the cable spool
- Our cables last longer, spooling over a 3.5" winder
- Precision machined fit of Sea-Drive to drive shaft
- Solid grooved aluminum winder shaft
- Solid aluminum billet style bearing
- All lifts are CE Approved and Manufactured in an ISO 9001-2008 Certified Factory
- We use 12 wheels with Stainless Steel equalizer brackets vs. 6 wheels and no equalizer brackets (we are twice as strong and safe!).

GOLDEN 4 AND 8 POST BEAM LIFTS

These 4 and 8 piling units are traditional shafted beam boat lifts. All are engineered to withstand harsh saltwater conditions using 6061 T6 marine grade aluminum and all stainless hardware. All Golden Lifts are welded for structural integrity while bolting is limited to components requiring adjustments.

"Just wanted to let you know how much I love this lift... It's exactly what I wanted and envisioned"
- Keith, Maryland

BEAM LIFT CAPACITIES

4 POST LIFTS

- 4,500 lbs - 56,000 lbs

8 POST LIFTS

- 32,000 lbs - 240,000 lbs

WHY BUY A GOLDEN 4 OR 8 POST BOAT LIFT?

- The Sea-Drive is warranted for 10 years and has 8,000 inch pounds of torque so we can use a 3.5" winder vs. a 2.375" winder.
- Our lifts are faster and safer. We lift 11" per wrap vs 7" per wrap.
- All hardware and cables are 300 series stainless steel.
- Our cables last longer, spooling over a 3.5" winder.
- All non-adjustable parts are welded.
- 6061 T6 aluminum structure.
- All of our assemblies are built for commercial or private use.
- Pulleys with hardened bushings and stainless steel grease fittings.
- We offer many support options for different boat styles and hull shapes.
- All lifts are CE Approved and Manufactured in an ISO 9001-2008 Certified Factory

GOLDEN GATORVATOR™ BOAT LIFTS

This unique patented GatorVator™ lift design allows us to manufacture a boat lift without the use of an upper structure, eliminating the unsightly beams that make boarding difficult. It also enables the motors to be placed on the shore side for easy maintenance and permits leveling of your boat from bow to stern for easy draining while the unique patented cable system ensures the cradles will always stay level port to starboard.

It is adaptable to boat houses, existing pilings and other structures. The GatorVator™ fits in narrow areas along the dock and is user and installer friendly.

GATORVATOR LIFT CAPACITIES

- 2,000 lbs - 30,000 lbs

"The Golden Boat Lift is vastly superior to other lifts I have owned and used." - Roger, Florida

WHY BUY A GOLDEN GATORVATOR BOAT LIFT?

- The Sea-Drive is warranted for 10 years and has 8,000 inch pounds of torque so we can use a 3.5" winder vs. a 2.375" winder
- Ease of maintenance.
- Fits in narrow areas along the dock.
- Fits most pile configurations.
- 33% Faster!
- Less cable than other boat lifts.
- No unsightly beams.
- Easy access on and off the boat.
- No electric wiring under water.
- Simple leveling of boat from bow to stern.
- Available as a 3 Piling Lift or 4 Piling Lift.
- Available in 2 Motor and 4 Motor Configurations.

120,000lb Golden Boat Lift in Jolly Harbour, Antigua

GOLDEN DECK LIFT OPTIONS

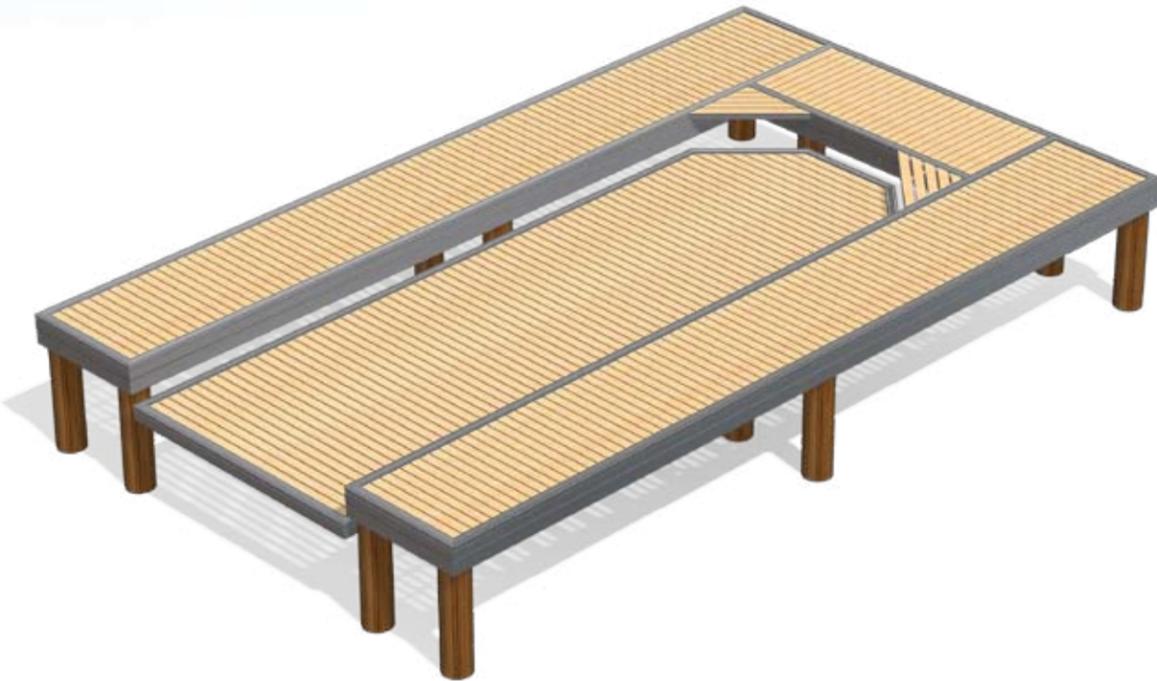

- Decks can be custom built to fit all Golden Boat Lift Capacities
- Adds convenience for complete access to your personal watercraft or boat
- Anti-Slip Decking
- Eco-Friendly, does not block sunlight which allows the sea-grass to grow
- Available in Various Colors
- The Sea-Drive is warranted for 10 years and has 8,000 inch pounds of torque so we can use a 3.5" winder vs. a 2.375" winder

Single Drive Boat House Lift up to 8,000 pounds

WHY BUY A GOLDEN BOAT HOUSE LIFT?

- The Sea-Drive is warranted for 10 years and has 8,000 inch pounds of torque so we can use a 3.5" winder vs. a 2.375" winder
- Easily Installed in existing boat houses
- Maximizes Slip Width
- 3.5" Diameter Winder for faster Lift Speeds
- All Aluminum Construction.
- Stainless Steel Motors
- Capacities up to 24,000lbs

Double Drive Boat House Lift
up to 24,000 pounds

GOLDEN 3K SINGLE TRACK LIFTS

The new 3,000lb Single Pile unit uses an exclusive Extruded Double I-Beam track for added stability and load distribution and can handle small watercraft up to 7' beam.

WHY BUY A GOLDEN 3K SINGLE TRACK BOAT LIFT?

- The Sea-Drive is warranted for 10 years and has 8,000 inch pounds of torque so we can use a 3.5" winder vs. a 2.375" winder
- Double I-Beam Construction
- 4" Aluminum pulley with 3/4" Axle
- Pipe Structure for angles from 90 to 45 degrees
- Standard wood bunks or optional Aluminum Bunks
- All of our assemblies are built for commercial or private use
- Heavy Duty Rollers
- Heavy Duty Cradle Assembly
- Boxed Track Cover
- Adjustable guide pole bases

PERSONAL WATERCRAFT LIFTS

Golden Boat Lifts manufactures the finest aluminum and stainless personal watercraft lifts on the market today.

"Trust me, there is not a better-made boat lift than a Golden."
-John Giddyup Bunch-Naples Daily News, 'Ask the Captain'

GOLDEN DOCK LIFTS

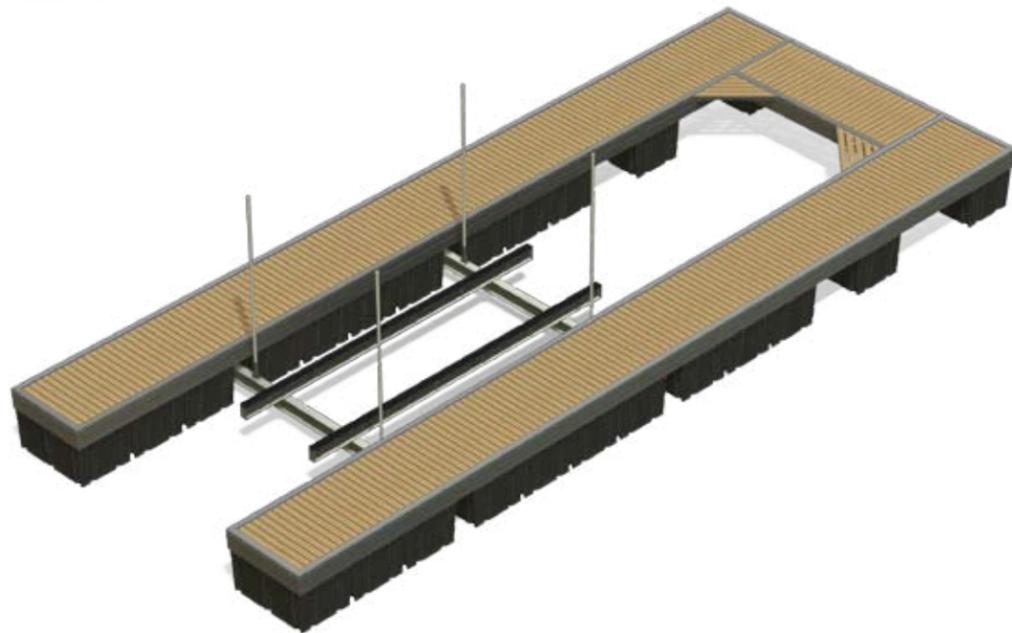

FEATURES

ACCESSORIES

Top Beam Cover

Commonly used in a low profile installation so that the top beam can be used as a walk platform. Made to fit each specific lift size.

Hinged Boarding Platform

Optional High Speed Motors

Remote Controls

Golden Boat Lifts offers standard and auto-stop remote controls for added convenience when raising and lowering your boat.

Stern Platform

Made to provide access to your outdrives or motors. Standard length is 16'.

Bunk Risers

Used to elevate the bunk to meet specific boat manufacturers' specifications.

Tide Guides

Designed to keep the cradle in place in high current situations. Mounted on all four corners of your cradle beams, they will follow the piles keeping the cradle in place.

Optional 12 Volt DC Solar Power

Walkway

Used to allow greater access to your boat for boarding and cleaning. Standard width 16", wider and longer custom walkways available.

Optional Aluminum Bunks

Stairs/Steps

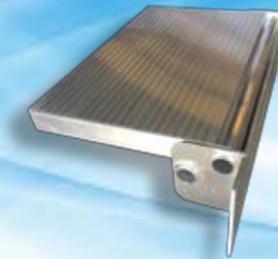

Made to give even greater access to your boat and to attach to our standard walkways. Standard sizes: 2 step, 3 step, 4 step (8" step rise). Larger sizes are available upon request. Hand rails can be added if required.

Cable Keepers

Designed to keep the cable running in the grooves, very helpful for rough water situations. These are optional on any 4-Post or 8-Post lift.

3 Step Walkway Stairs

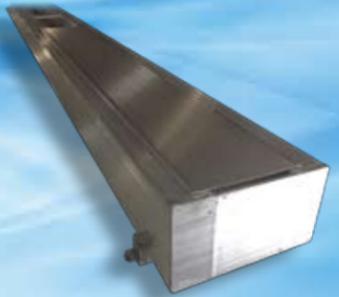

Hinged Boarding Platform

Standard Bunk Riser

Cable Keeper
